MORE BALLOTS THAN MEMBERS,

The Board of Education met vesterday and organized for the year 1883. The four new Combissioners William M. Ivius, Dr. William B. Wallace, Eugene H. Pomerov and Edward I. H. Tambeen, parintpated in the proceedings of the Board for the first time. Commissioner Beardsley was the only member absent and he was detained because of illness. Commissioner Coudert acted as chairman pro tem, while the Board was engaged in electing a president. Before the result of the first ballot was announced, Commissioner Bell explained that he had by matake put a blank ballot in the box, and he asked permission to change it. The chairman declared "that there could be no tampering with the ballot box," which remark was greeted with laughter and the permission asked was refused. The result of the ballot showed that the twenty Commissioners present had cast twenty-four votes, divided as follows:

Stephen A. Walker. 10; Wilham Dowd, 1; Edward Patterson, 6, and blank, 7.

Commissioner Bell arose and announced that the extra votes cast did not belong to him. The chairman replied that no one had been asked for an excuse. He thought that it might be necessary to instruct the members, old and young, that they had enly one vote each. The second ballot resulted in the election of Stephen A. Walker as president, for a fourth term, by the following vote; S. A. Walker, 12; Edward Patterson, 5; William Dowd, 1; and blank, 2. All agreed that the extra votes in the first ballot got in the box by mistake. Mr. Walker, thanked the members for their renewed expression of confidence, after which Lawrence D. Kiernan was re-elected Clerk, receiving 19 votes, and John Davenport was received from the inspectors of a number of school districts, which were read. After the transaction of some routine business the president ap; onted the Finance Committee, of which William Dowd was made chairman.

MARKETMEN READY TO FIGHT.

A delegation of standholders of West Washington Market attended the meeting of the Dock Department yesterday. Robert G. Cornell presented a petition signed by about 250 standholders, requesting the commissioners to delay work on the improvements until accommodation for standholders could be found elsewhere. Mr. Cornell stated that the marketmen had organized for the purpose of mutual procetion, and that they represented a business of \$50,000,000 a year. If the city failed to provide accommodation, the marketmen would incorpor to themselves under State laws, purchase property and erect a building at their own expense. If asked when it was proposed to begin these improvements.

President Laimbeer—It was our intention to begra at once by widening West-st- to 250 feet between Dey and Vesey-sts. Would you be satisfied
to be permitted to remain undisturbed until
Mr. Cornell—Oh, no! that would be too short a
time for us to erect a building even if we had the
cround.

Commissioner Vauderpoel—It is due to us that you should state definitely how much more time

you desire.

A.C. Council (after consultation with h a co-delegates)—the work of improvement should be delayed a year at least, as the city has not yet acquired title to all of the land at Gausevoort-st., which it is necessary to do before accommodations can be given

recessary to do before accommodations can be given to us there.

President Lambeer—I understand you to say that you can't get out short of a year, and that if we undertake to disture you you will take advantage of all legal points?

ar. Cornel—I na 's our position exactly. I don't like to he when I can get along without it. If we can't agree with you in conference we can fight good naturedly for our rights.

Commissioner Vanderpoel—We desire to be frank with you and would therefore recommend you to get your injunction ready, as 1, for one, am opposed to any further exter sion of time.

After further consultation, and a promise of an answer in a few days, the delegation refired.

The delegation appeared before the Board of Estimate and Apportionment and asked to be heard with reference to the proposed widening of Westst, and removal of West Washington Market. They were informed that they should apply to the Sinking Fund Board for relief, and that that body would prepably meet in a few days.

It was ascertained that Lenchner was the son of a poor widow living at No. 1,166 Second-ave., and that he had disappeared from the Five Points House of Industry on the day when he was found by the police. The superintendent and teachers of the House of Industry emphatically denied the boy's charges of cruelty.

Mr. Bergh, the president, in his account of the work of the association for the past year, referred to the bill presented to the Legislature last year for the suppression of pigeon shooting, and attributed its failure to become a law to the "overwhelming political influence of the sporting fraternity." Mr. Bergh referred to the practice of hunting foxes for sport as a needless destruction of wind animals in an attempt to kill time, and resulting occasionally in breaking the leg of the wrong animal while jumping iences. The report of the Executive Committee gave a detailed account of the progress of the society and of the founding of similar associations throughout this country, in Canada and Nova Sectia. It also referred to the death of the Rev. H. W. Bellows and Moses Taylor as losses to the society of two of its incorporators.

Henry Bergh, jr., the secretary, reported that the Brooklyn agency of the organization is prosperous. Two ambulances for the removal of disabled animals from the streets have been added to the equipment of the society. They have carried in the last year 214 animals to places of sheiter. In speaking of the dog-pound in this city Mr. Bergh called the attention of the Executive Committee to the poor quality of food given to the captured dogs. The superintendent, Charles H. Koynolds in connection with the circular issued on Treesday calling upon the stockholders of the Cooperative Dress Association to unite in forming a protective committee to guard their interests. Angustus A. Levey said: "I had several talks with these men before the circular was issued, and, as they seemed to agree with me that the affairs of the association were not being sottled in a just manner, I thought they would not object to my putting their names upon a paper embodying this opinion. I am v. ry sure that they are as anxious as myself to see fair play.

CLEVER OPERATIONS BY A FORGER.

James F. Sheeban, formerly a confidential clerk of Megroz. Portier, Grose & Co., dry-goods merchants at No. 85 Grahu-st., was arrested in Montreal on Tuesday for forgery. A member of the firm, who was seen yesterday by a Tribune reporter, said that Sheeban had been in its employ for three years, and had always proved himself a thoroughly trustworthy man until last February. At this time he received for the firm a check for \$7,280 from a business house in this city. He forged the indorsement of the firm upon the check and deposited it in the Merchants' Bank in his own name. He covered up his work so well that the deficit was not discovered until May, when he suddenly left town taking with him about \$700 in cash belo ging to his employers. The Merchants' Bank offered a reward of \$500 for information which would lead to his arrest. Nothing, however, was learned of him until Monday, when a dispatch was received asking if the reward was still open. An affirmative reply was sent, and the rext day the announcement of his arrest in Montreal was received. He will be brought to this city for examination. CLEVER OPERATIONS BY A FORGER.

BURIAL OF WILLIAM A. SEAVER.

The funeral of the late William A. Seaver took place yesterday, at 1 o'clock, at his late residence, at Mount Vernon. The Rev. Mr. Bolton, of whose church the deceased was a member, read the service over the remains. Funeral ceremonies occurred both at the house and the grave, and were deeply impressive—not less because of the deep and tender feeling with which the officiating clergyman read the Episcopal service than because of the simple and appropriate execution of the incidental chant and the hymn. There was not a very large concourse of friends—the severe storm and extreme cold preventing the presence of many who would otherwise have attended. Among those present were Judge John R. Brady, George W. Quintard, Charles Delmonito William Winter,

Hugh Hastings, Joseph Burke, and Dr. Coan. These and other friends tollowed the coffin to Woodlaws Cemetery, where the burial was made.

# THE EAST ELEVENTH-STREET CEMETERY.

THE FAST ELEVENTH-STREET CEMETERY.

A meeting of lot owners in the Catholic Cemetery in East Eleventh-st, was held last night in Room No. 24, Cooper Institute, to protest against the removal of the bodies in the cemetery and to take measures to prevent the trustees of St. Patrick's Cathedral from carrying out their intention in that regard. The room was filled to overflowing. Dr. J. A. Duggan was made chairman of the meeting, and the secretary took the names of all those present who had relatives buried in the cemetery. About fifty such were found to be in the room. Arthur J. Delaney made a long spech in which he denounced the action of trustees in the most unsparing terms. He showed that the ground for the cemetery had been bought for \$37,000, and that a part of it had been sold for \$25,000 more than the whole had cost. Not a dollar of this profit had been used to improve the cemetery. It had gone to help build an elegant palace that his hearers were not considered good enough to enter, because they were boor. He said that he had determined to make those men who used the cloak of the church to compass base ends answer in the courts honest questions which they had refu ed to answer at the Cathedrat. His own evidence in re-

gard to his relatives' bodies was oral, and be wished those who had written evidence of the ownership of lots where relatives were buried would join with him in forcing by law an answer to questions which housest men would never have refused to answer. An executive committee was appointed, consisting of all who had written evidence of the presession of lots, to decide upon what course to pursue in the matter.

The new Cathedral will be draped in black, and the body will remain over night on an elaborate catafalque placed before the sanctuary. The body will be interred beneath the high altar, where twenty-four stone vaults have been built for the Archbishops of New-York.
